VIRGINIA TECH

Virginia Polytechnic Institute and State University is a public institution with a world-renowned reputation in high-technology fields, such as engineering, architecture and the sciences. The university teaches more than 28,000 students, including 2,000 international students representing 110 countries. Virginia Tech, as the university is popularly known, offers more than 70 undergraduate majors and nearly 110 graduate degree programs taught by nationally and internationally recognized scholars.

Virginia Tech is organized into eight colleges — Agriculture and Life Sciences, Architecture and Urban Studies, Science, Pamplin College of Business, Engineering, Liberal Arts and Human Sciences, Natural Resources and Virginia-Maryland College of Veterinary Medicine.

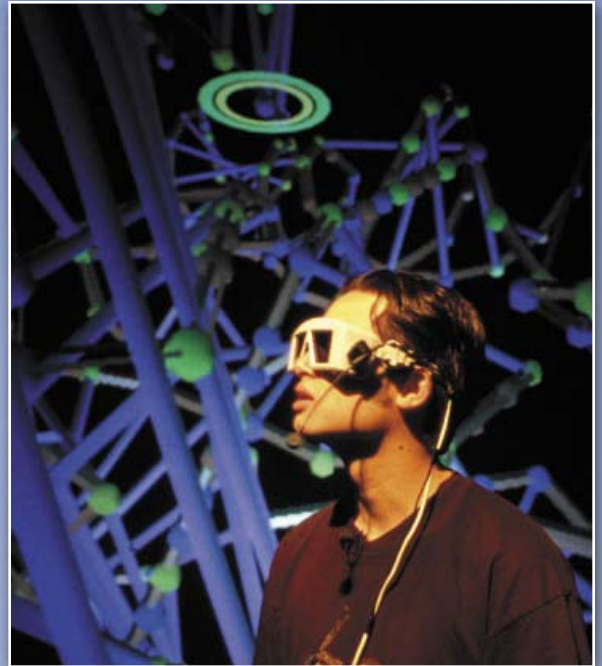

RESEARCH: With 3,700 ongoing research projects, Virginia Tech is the state's top research university and one of the top in the nation.

TECHNOLOGY: At Virginia Tech, technology is part of every student's daily vocabulary. Students learn better and faster, keep in touch with home and with the world, generate working relationships with teachers, and ready themselves for success in tomorrow's workplace.

RESIDENTIAL & DINING PROGRAMS: Each year, more than 8,700 students live on campus, 4,000 of whom are upperclassmen. The on-campus experience includes a wide variety of activities such as study skills sessions, movie nights and intramural sport teams.

Each residence hall room is equipped with high-tech communications systems that provide voice mail and Ethernet access. Rooms are also equipped with a cable TV outlet that provides a wide variety of instructional, entertainment, news and foreign language programs.

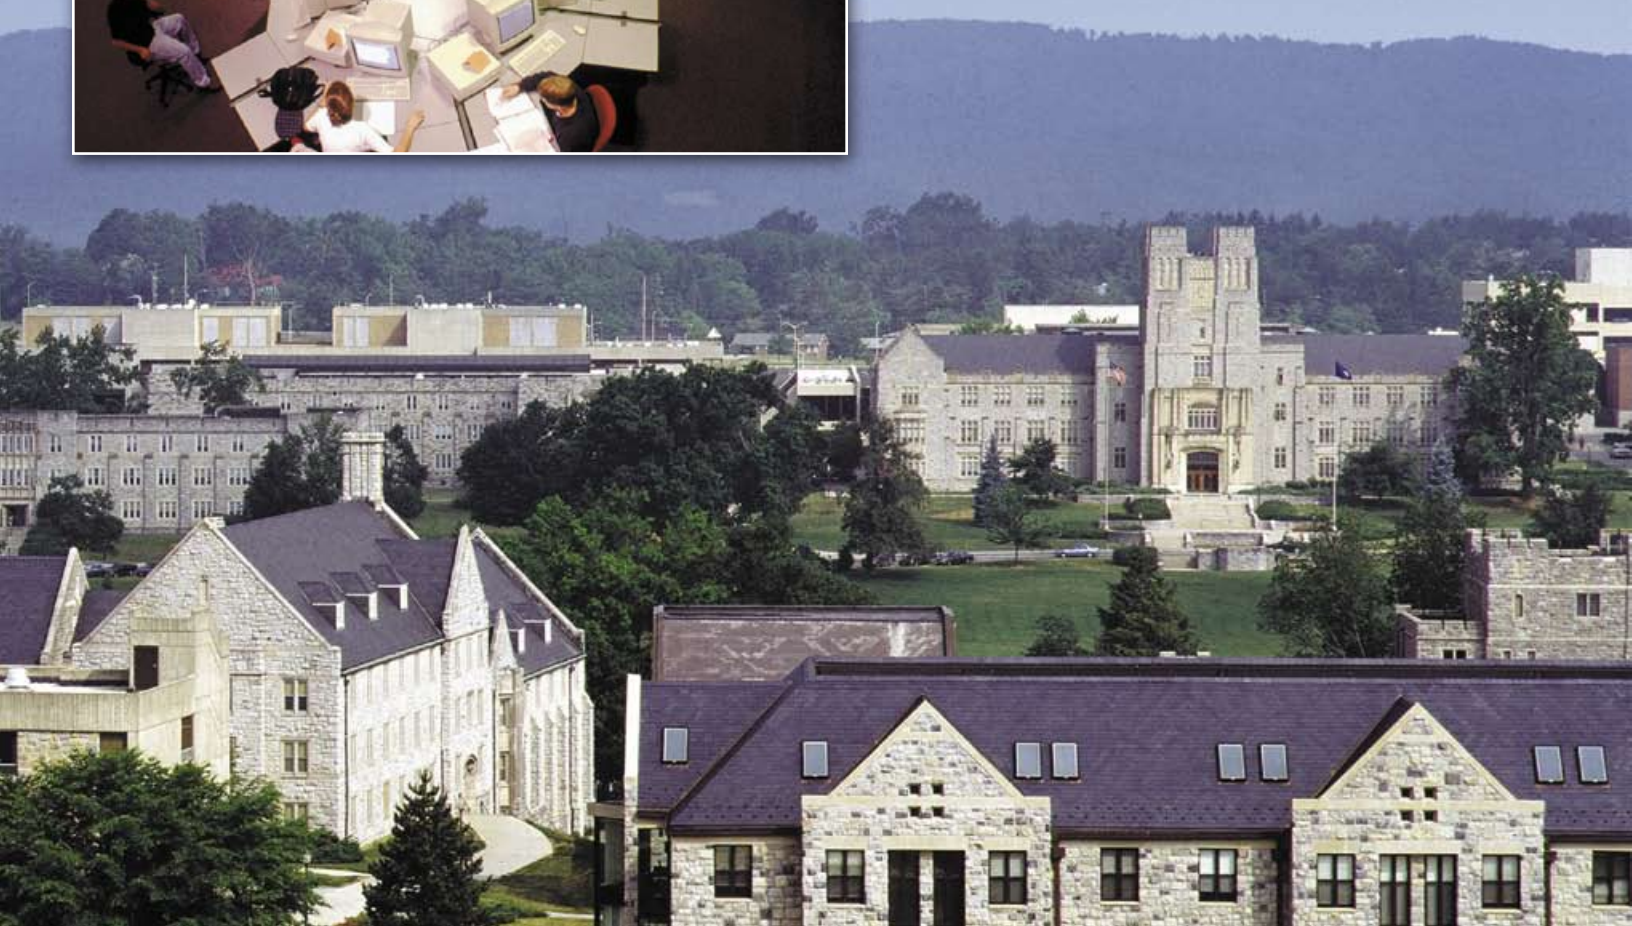

Dining centers include specialty dining areas, all-you-care-to-eat buffets and a 12-station food court.

STUDENT LIFE: More than 500 student organizations on campus serve academic, athletic, service, religious, arts and special interests, among others.

Tennis, golf, hiking, camping, cycling, jogging, canoeing and kayaking, swimming and horseback riding are favorite activities which can be enjoyed on or near campus year-round.

HOKIE SPORTS: Virginia Tech athletics teams compete at the NCAA Division I level in 21 men's and women's sports. Tech became a member of the Atlantic Coast Conference for all sports on July 1, 2004.

2005 OUTLOOK

With all the hard work and preparation that was put into the off-season, the 2005 Virginia Tech lacrosse team will be primed and ready for its inaugural season in the Atlantic Coast Conference. The Hokies will have to rely on each other to help feel their way through what is considered the toughest conference in the nation.

The departure of two top scorers, along with three other players – all due to graduation – has left a young, but tough team in place. The team is not only young by class standards, but also young in the Atlantic Coast Conference. However, the Hokies will not go into the conference naïve. Head coach Tami Riley was a part of three national title teams at Maryland during her playing days, and her experience should help the team grow up before conference play begins.

Sixteen players return from last season's 8-8 team, while nine newcomers have been added to the mix. In the fall season, nine underclassmen started, but with the help of the three veteran starters, the team thrived. Despite losing two of the school's all-time top scorers, the team returns a plethora of talent.

STEPHANIE JONES

ATTACK

Although Tech loses Kate Threadgold, who finished her career as the fifth-most prolific goal scorer in history, the Hokies will have plenty of players to fill her shoes.

Tech will be led by junior tri-captain Stephanie Jones and sophomore Britt Faulkner, who each had 32 goals a season ago, etching themselves as the 10th most productive goal scorers in a single season at Tech. Both are within striking distance of the top ten all-time goal scorers in school history.

"Steph Jones will be very effective on the attacking end, whether it is scoring or assisting," Riley said. "Britt will continue to be one of our top scorers as well."

After a strong freshman campaign, Kelsey Mays, who recorded 16 goals and 13 assists a year ago, will be one of the players to see plenty of action.

"Kelsey has strong one-vs.-one skills," Riley said. "She will be effective whether she is scoring or playing off the ball."

Two freshmen, Kady McBrearty and Jenna Reich, will also vie for significant playing time, with the possibility of starting.

"Kady has a very quick first step and has improved her one-vs.-one skills," Riley stated. "Jenna has a strong shot and is able to place herself in a threatening position. Both will be effective on the offensive end."

Katie Russo and Mary Cay Thomas will all add depth to the attacking position this year.

MIDFIELD

Despite the loss of Lindsey Welch, who netted 40 goals a season ago, and is now on the Tech sideline as an assistant coach, the midfield has six players back from that position in 2004. The midfield has an abundance of players who will see valuable minutes throughout the season.

Kate Schilling and Natasha Fuchs will help the team by winning draw controls. "Schilling has the size and build to do just about anything on the field," Riley said.

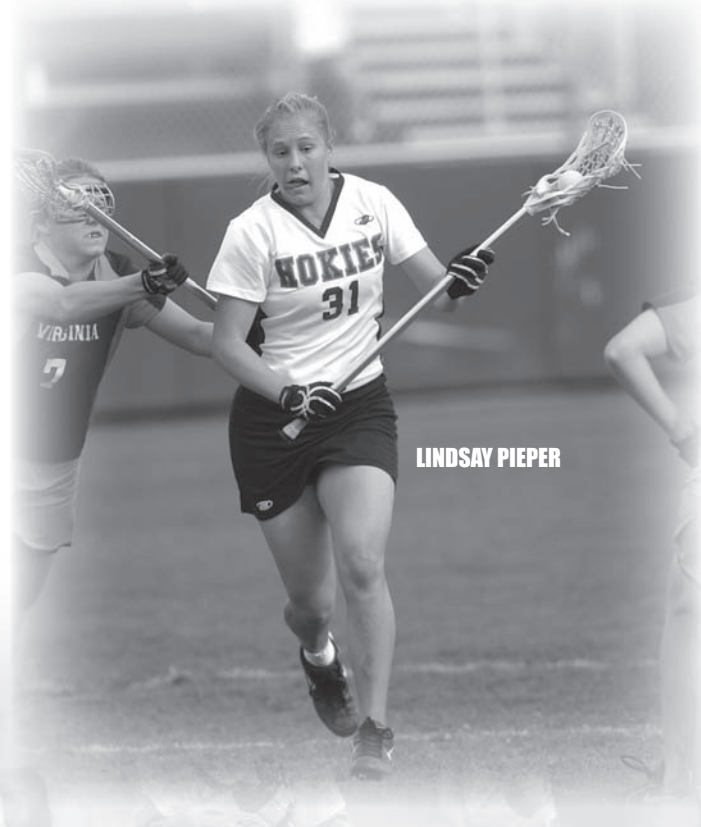

"Lindsay Pieper and Fuchs play off each other very well along with Jones when on attack," Riley stated. "Natasha is very feisty and competitive. Lindsay is truly a fantastic player. She was the rookie of the year last year and I expect more out of her this season."

Jamie Webster, who recorded 17 caused turnovers last year, will continue to be a menace to opposing teams.

"Pieper, Schilling, Webster, Fuchs and Bryana Keenan are all triple threats," Riley said. "They all have the ability to do everything."

Keenan, who made a tremendous impact in her freshman season, will make the transition from defender to midfielder. Her ability to attack and score, as well as her knowledge as a defender, will add strength to the team in a variety of ways.

Jackie Gray has great speed along with a hard working attitude. She will be playing a substantial amount of time.

LINDSAY PIEPER

2005 OUTLOOK

CASEY GOODMAN

Rosemary Patterson, Michelle Patriquin and Leigh Rogers will add tremendous depth to the midfield. Kristen Burtch could also see time, but is recovering from an injury sustained during the fall season.

DEFENSE

While only having four defensive positions, six players will vie for playing time during 2005 and all will make significant contributions

throughout the course of the season.

Junior tri-captain Katie Boyle, senior co-captain Melissa Fullenkamp, freshman Jessica Galindo and junior Casey Goodman will be solid contributors at the defensive end of the field. Keenan and Webster will drop back from their midfield positions in order to add quality depth.

Last season, junior tri-captain Katie Boyle picked up 42 groundballs, which was seventh-best ever during a single-season. Her 24 caused turnovers were sixth on the single-season top ten list.

"Katie is a great communicator," Riley said. "She will have a big impact after returning from her shoulder injury. She stabilizes the unit and makes sure things are running smoothly."

Led by Fullenkamp, the defense should thrive after a successful fall campaign.

"Melissa has shown leadership this past fall and it shows through the success of this team," Riley said.

Fullenkamp and Goodman have each put themselves in a good position for significant playing time. Galindo, who was injured at the end of the fall season, should return and make a huge impact as well.

Nikki Schiavone, a 5-7 sophomore, will see plenty of time between the pipes for the Hokies.

"Nikki impressed me the most in the fall," Riley stated. "I'm proud of what I've seen from her and am excited to see what she can do this spring. She has a quick stick and worked hard with her form this summer. She is developing into a fantastic goalkeeper."

Junior Carrie Hill could also see time in goal, but she is recovering from a reoccurring injury.

SCHEDULE

The non-conference portion of the schedule will be challenging for a young team, but very manageable after competing against the schools in the Atlantic Coast Conference.

Although the Hokies will play four consecutive non-conference road games during a stretch of nine days, including perennial powers James Madison and Ohio State, Riley is excited about the schedule.

"Going into the top conference in the nation, we have to prepare ourselves," Riley said.

After opening up on the road at Maryland Baltimore-County, Tech returns to Blacksburg for three home games against Longwood, George Mason and St. Bonaventure before hitting the road.

During the trip, the Hokies will face Ohio, Ohio State, James Madison and La Salle.

On Mar. 24, Tech plays its first of five consecutive home games, when the team hosts Howard. After that, the Hokies face Bucknell before opening the ACC slate with a showdown against Riley's former team, the Maryland Terrapins. Between hosting Maryland and North Carolina, the Hokies will take on Davidson.

Two of the Hokies' final three games are on the road. On Apr. 15, Tech will travel to Charlottesville, Va., and face the Cavaliers for bragging rights in the state before hosting Lafayette. Tech then ends its regular season at Duke before playing in the ACC Tournament.

FACILITY

In their inaugural ACC season, the Hokies will host games at the Virginia Tech Lacrosse Stadium. Last year, in its first season in the new

facility, Tech posted a 5-3 mark at home. The stadium seats 1,000 fans and features a natural bluegrass playing field.

"Our stadium is gorgeous," Riley said. "The field is cut perfectly and it is like a 'field of dreams.' It is a surface that I would have liked to play on."

If the Hokies can achieve Riley's three keys to success — receive the draw control, get the ball in the net and keep it out of the net on defense — the dynasty that she wants to build at Tech will clearly be underway in the best conference in the nation.

MEET THE COACHES

Tami Riley
HEAD COACH

Tami Riley enters her fourth year as the head coach at Virginia Tech. In her first three seasons at the helm of the Hokies, Riley produced five All-BIG EAST Conference team selections and five Virginia Tech Athletes of the Week.

In 2004, Riley led the team to a five-game turnaround, finishing the season 8-8. Two of the victories came over ranked opponents,

defeating No. 17 Ohio State 10-6 and a season-ending win in Fairfax, Va., over No. 18 George Mason 5-4.

During 2004, the Hokies managed to receive votes in the IWLC top 25.

Under Riley, the coaching staff has brought five high school All-Americans and four academic All-American players to Blacksburg.

Riley joined the Hokies after serving four years as assistant coach at James Madison University. During her career at JMU, the Dukes won two Colonial Athletic Association Championships, went to the NCAA Tournament every year, and appeared in the 2000 Final Four. JMU won its second CAA title under assistant coach Riley and advanced to the NCAA Tournament.

The Terrapins won three NCAA titles during her career as

a player and Riley co-captained the first team to successfully defend an NCAA women's lacrosse championship with titles in 1995 and 1996. Riley was named to the NCAA All-Tournament team those years. In her final two seasons as Maryland, the Terrapins were 36-0. At Maryland, Riley was not only a four-year letterwinner in lacrosse for the Terrapins, but also played soccer her first two seasons at the university.

Riley graduated from Maryland in 1996 with a degree in kinesiology. A Maryland native, she graduated from Severna Park High School with her twin sister, Tina, and an older sister, Bethany. She adores her nephews, Patrick and Zachary, as well as her nieces, Riley and Maggie. Her parents live in Northern Kentucky.

Tami Riley, No. 28, celebrates one of the three national championships she won at the University of Maryland.

THE RILEY FILE

Education

- 1997, First Round, Virginia, Assistant coach

MEET THE COACHES

Lisa Staedt begins her second season at Virginia Tech as an assistant coach.

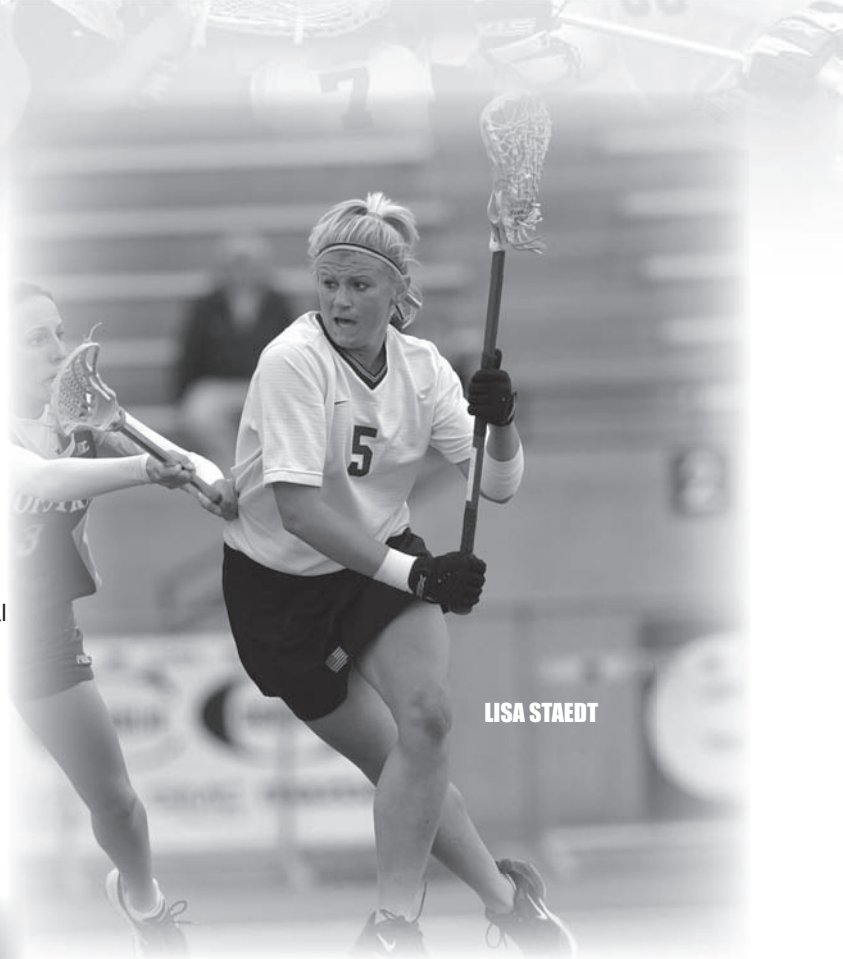

On the field, she works primarily with the midfield. Off the field, Staedt handles all of Tech's travel responsibilities along with some on- and off-campus recruiting.

A native of Springfield, Pa., Staedt comes to Tech from James Madison University where, as a

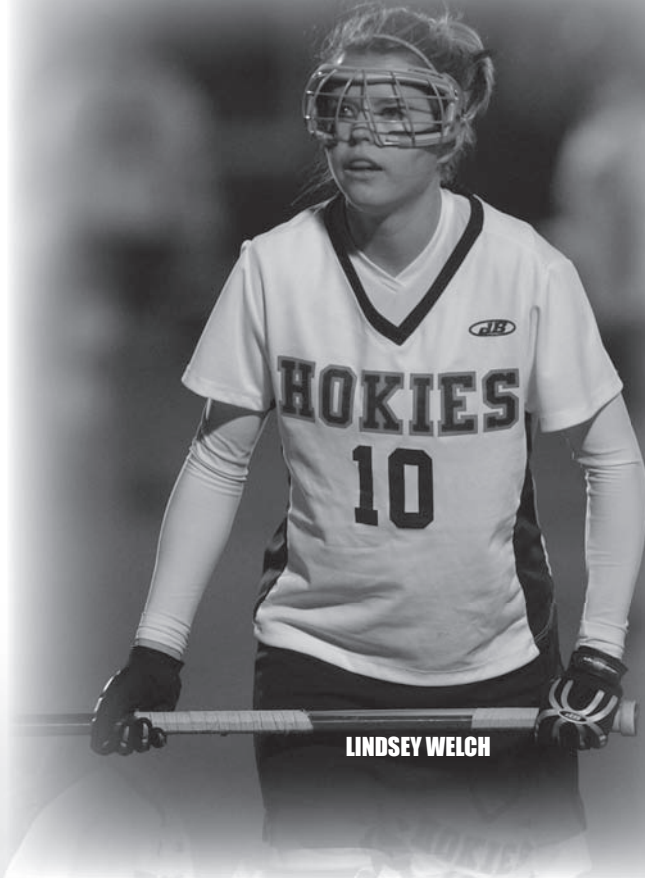

player, she helped guide the Dukes to three NCAA Tournament bids, including a Final Four appearance in 2000, and two Colonial Athletic Association championships.

A three-time All-American, Staedt was twice named CAA Player of the Year (2002 and 2003). She was named James Madison's Female Athlete of the Year (2003) and was a nominee in 2002 and 2003 for the Tewaaron Trophy, which honors the top collegiate lacrosse player. She was a finalist for the award in 2003.

Staedt graduated from James Madison in 2003 with a degree in kinesiology.

LISA STAEDT

LINDSEY WELCH

Lindsey Welch begins her first season at Virginia Tech as an assistant coach.

Her daily duties include alumni relations, working with players and assisting with Tech's recruiting efforts.

A native of Englewood, Colo., Welch had a standout career as a Hokie, playing from 2001-2004. As a player, she became a fixture in the record book, placing in the top ten for a career in goals, assists, points, groundballs and draw controls.

She is also in the top ten single-season list for goals, points, groundballs and draw controls.

A captain during her senior year, Welch was named BIG EAST Co-Offensive Player of the Week on March 15 en route to being selected second team all-conference. She was also the recipient of the competitor award after the completion of her eligibility.

Welch graduated from Virginia Tech in 2004 with a degree in health and physical education.

MEET THE HOKIES

11

**5-8
Senior
Defense**

**Our Lady of Good Counsel H.S.
Silver Spring, Md.**

Melissa Fullenkamp

RILEY ON FULLENKAMP: "Melissa is returning from a redshirt season. She will see a lot of playing time as a line defender with the potential of starting. Being the captain, Melissa has already shown leadership on and off the field in the fall. I expect the same positive leadership during the spring season."

2004: Took a medical redshirt ... BIG EAST Academic All-Star.

2003: Started in all 17 games ... Four groundballs against George Mason, New Hampshire and Maryland ... Season-high three draw controls vs. Connecticut ... Ended the year ranked fourth on the team in draw controls (13) and fifth in caused turnovers (10) ... BIG EAST Academic All-Star.

2002: Started 15 games for the Hokies ... Led the team with 26 draw controls ... Gathered 31 groundballs and had 13 caused turnovers ... Scored one goal and notched two assists ... Had one assist against both Rutgers and Ohio State ... Netted her first collegiate goal in the win over Denver.

High School: Lettered four years in lacrosse for Coach Beth Nave at Good Counsel ... All-county and all-conference as a senior ... Team won conference championship as a senior and she scored the winning goal ... Also lettered three seasons in soccer ... Soccer team was ranked No.1 nationally as a senior and won three straight division championships ... Won Brother Remegious Award for leadership as a senior ... Member of Student Council and National Honor Society.

Personal: Melissa Bernadette Fullenkamp was born September 11, 1982 in Silver Spring, Md. ... Daughter of Daniel and Jean Fullenkamp ... Has two older brothers, Joshua and Nicholas ... Majoring in human development.

Katie Boyle

RILEY ON BOYLE: "As a captain this year she will help lead this team to success. Katie has quick feet and great body positioning on defense. Last year she led the team in caused turnovers along with groundballs and can easily do the same this season."

2004: Started on defense in all 16 games ... Led the team in groundballs (42) and caused turnovers (22) ... In school single-season records, ranks sixth in caused turnovers and seventh in groundballs ... Was tied for fourth in the BIG EAST for groundballs in overall games ... In conference games only, was 11th in groundballs with 14 ... One of only three players to grab six groundballs in a game in 2004 ... Had six groundballs in the Hokies upset over No. 18 George Mason ... Season-high four caused turnovers at Bucknell ... Recorded her first collegiate assist against Longwood ... Had four groundballs and two draw controls in win over Ohio University ... At Lafayette, tallied two groundballs and three caused turnovers ... Grabbed a season-best three draw controls against Virginia.

2003: Appeared in three games for the Hokies ... Recorded a caused turnover against Rutgers.

High School: Lettered three years for Coach Kimberley Gatelein at Cherry Hill High School East ... Team captain as a senior ... Ended high school career with 168 goals ... Team MVP in junior and senior years ... Second-leading scorer in the state of New Jersey as a senior with 91 goals ... Received first-team All-Olympic Conference honors as a senior ... A second-team All-South Jersey selection in 2002 ... Garnered honorable mention all-state honors as a senior ... Participated in the South Jersey All-Star Game and North/South All-Star Game ... A four-year letterwinner in soccer ... Earned second-team All-Olympic Conference honors ... Received the Olympic Conference Sportsmanship Award ... Earned three letters in basketball ... Received honorable mention All-Olympic Conference honors ... Named the Cherry Hill East Defensive Player of the Year as a senior ... Cherry Hill Female Athlete of the Year in 2001 and 2002 ... Four-year honor roll student ... Class vice-president junior and senior years.

Personal: Katie Lauren Boyle was born June 29, 1984 in Philadelphia, Pa. ... Daughter of Tom and Nancy Boyle ... Has an older brother, Kevin, and a twin brother, Jim ... Majoring in biology.

Winston Churchill H.S.
Potomac, Md.

Katie Russo

RILEY ON RUSSO: "Katie is the best player coming out of her area. She is a hard worker, very quick and aggressive. I am looking forward to seeing what she can achieve this year."

High School: Two-time honorable mention All-America at Winston Churchill under Coach Ed Dennis ... Three-time highest scoring player in Montgomery County ... Three-time all-Gazette ... First-team all-Journal junior and senior years ... Tallied 224 goals and 50 assists in high school.

Personal: Katherine Anne Russo was born April 22, 1986 in Fairfax, Va. ... Daughter of Charles and Cherie Russo ... One of four children ... Siblings are Tara, Sammy and Madison ... Majoring in communication.

By the way, what is a Hokie?

That's the most often-asked question in Virginia Tech athletics. The answer leads all the way back to 1896 when Virginia Agricultural and Mechanical College changed its name to Virginia Polytechnic Institute. With the change came the necessity for writing a new cheer and a contest for such a purpose was held by the student body. Senior O.M. Stull won first prize for his "Hokie" yell which still is used today. Later, when asked if "Hokie" had any special meaning, Stull explained the word was solely the product of his imagination and was used only as an attention-getter for his yell. It soon became a nickname for all Tech teams and for those people loyal to Tech athletics. The official school colors - Chicago maroon and burnt orange - also were introduced in 1896. They were chosen because they made a "unique combination" not worn elsewhere at the time.

THIS IS VIRGINIA TECH

A Research University in Action

The top research institution in the commonwealth, Virginia Polytechnic Institute and State University is a comprehensive university of national and international prominence. Virginia's premier land-grant university, Virginia Tech has grown from a small college of 132 students into the largest institution of higher education in the state during its 132-year history.

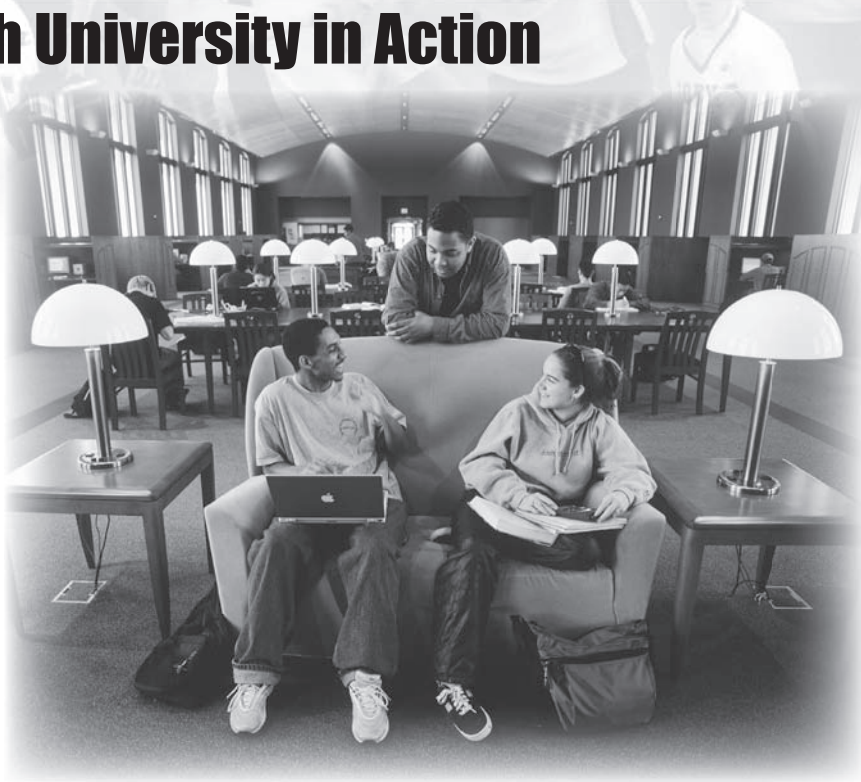

Recognizing that higher education is a key force behind the quality of American life, economic competitiveness, and our democratic form of government, President Charles W. Steger has challenged the university to become one of the country's top 30 research institutions by the end of the decade. Tech is currently ranked 52nd in the nation.

Among recent research innovations, Tech teamed with Wake Forest University to establish the Virginia Tech-Wake Forest University School of Biomedical Engineering and Sciences to offer M.S. and Ph.D. degrees in biomedical engineering (BME) and to be the focus of collaborative research. The university's Virginia Bioinformatics Institute is leading the way in helping scientists merge computers and biotechnology to sort through complicated genetic material to speed research. And the university's partnership with the University of Virginia and Carilion Health System to form the Carilion Biomedical Institute is improving health care worldwide and increasing economic development opportunities in Southwest Virginia.

In other areas, Virginia Tech has one of the most comprehensive and successful programs to support state and local economic development, according to a study conducted by the Southern Growth Policies Board and funded in part by the National Science Foundation. The study report, *Innovation U: New University Roles in a Knowledge Economy*, named the nation's 12 most successful universities in terms of outreach, economic development and technology transfer practices.

Virginia Tech was established in 1872 as an all-male military school dedicated to the original land-grant mission of teaching agriculture and engineering. Today, the co-educational institution, which operates a European studies center based in Switzerland and educational, research and outreach/Extension facilities throughout Virginia, has recognized programs in music, business, architecture and the humanities, as well as its traditional strengths in the sciences, engineering and technology.

While participation in the Virginia Tech Corps of Cadets is now voluntary, the corps, which has approximately 700 cadets, remains a

proud tradition of the university. Virginia Tech is one of only three public universities in the nation with a military component within a large civilian population.

Virginia Tech is organized into eight colleges — Agriculture and Life Sciences, Architecture and Urban Studies, Science, Pamplin College of Business, Engineering, Liberal Arts and Human Sciences, Natural Resources and Virginia-Maryland Regional College of Veterinary Medicine. Together, the colleges offer about 175 bachelor's, master's and doctoral degree programs to approximately 28,000 students, who hail from countries throughout the world.

The university's 2,600-acre main campus is home to more than 100 buildings, hundreds of research laboratories, the Donaldson Brown Hotel and Conference Center and an airport. Adjoining the campus is the 120-acre Corporate Research Center, home to more than 100 companies and 1,800 employees who take advantage of the university's research and faculty expertise. Within five miles of campus is a 1,700-acre research farm.

THE UNIVERSITY

Outreach

Virginia Tech is involved in a multitude of projects as part of its outreach mission. For example, it spawns economic development, helps global marketing efforts, investigates better uses for strip-mined land, helps clean the Chesapeake Bay and other state waterways, provides design and planning assistance to communities and directs reforestation in Senegal. University scientists developed the vaccine that is the standard for preventing brucellosis in cattle around the world.

Outreach efforts also focus on education and distance learning techniques — satellite videoconferencing, multimedia, interactive video, interactive computer conferencing and web-based courses, for example — to meet the various needs of working adults and other nontraditional students. Professionals, organizations and communities also tap Virginia Tech's vast resources, expertise and research results through Continuing Education, which offers hundreds of programs annually.

Virginia Cooperative Extension, operated jointly in the Commonwealth by Virginia Tech and Virginia State University, has been helping people improve their economic, cultural and social well-being for nearly 90 years. And while Extension has a long history of helping make America's agricultural powerhouse more productive and economical, it also does important work — from helping people learn healthy nutritional practices to counseling families in financial distress — in the state's urban as well as rural areas. With 107 city/county offices, and more than 61,000 volunteers, more than one million participants benefit annually from Extension's non-formal education. Extension has touched virtually every life in the state in some way.

VIRGINIA TECH AT A GLANCE

- Eight colleges and a graduate school
- 60+ bachelor's degree programs
- 115 master's and doctoral degree programs
- 16:1 student-faculty ratio
- Main campus includes 100 buildings, 2,600 acres of land and an airport
- Computing and communications complex for worldwide information access
- Currently ranked 52nd among the nation's research institutions
- Has adjacent corporate research park

Student Population

- The most popular majors for incoming first year students in the fall of 2003 were university studies, engineering, biology, business, computer science, psychology, communication, political science, architecture and animal and poultry sciences.
- Eighty countries and 42 states, plus Washington, D. C., the Virgin Islands and Puerto Rico are represented in the student population. Fifty-seven percent of the student population is male, while 43 percent is female.

More Fun Facts about Virginia Tech

- Just how big is Virginia Tech? There are 334 buildings consisting of 8,041,248 square feet under 100 acres of roof.
- It's a good thing students have 15 minutes to get to class. The campus, located on 2,600 acres, has 20 miles of sidewalks.
- With 8,681 students housed in 36 residence halls, Tech has the 14th-largest housing program in the country.
- Creating a true global village, voice, video and high-speed Ethernet service is delivered to each room.
- Virginia Tech has the 11th-largest dining program in the country, serving 17,000 students, faculty and staff 3.6 million meals per year.

Virginia Tech follows the dictates of its motto, *Ut Prosim* ("That I May Serve"), focusing on its land-grant missions of instruction, research and solving the problems of society through outreach and Extension activities. Through the generation of new knowledge and the outreach mandate, the university disseminates practical knowledge through the classroom and to society as a whole. It is a university that puts knowledge to work.

Instruction

Eight colleges offer more degree programs than any other university in the state, with 62 undergraduate and 115 graduate programs. In addition, the university is one of the nation's leaders in integrating instructional technology into the curriculum, requiring all entering students to have a computer. The university's Math Emporium has been hailed as an innovative way to break the credit-for-contact model of classroom instruction.

Research

With annual research expenditures of about \$232 million and more than 100 research centers, Virginia Tech consistently ranks among the top institutions in industry-supported research and in the top 10 in the number of patents issued each year.

The university's faculty and students are involved in more than 4,000 research projects in fields ranging from biotechnology to nanotechnology, from the environment and energy to food and health, and from transportation to computing information.

From the Duck Pond to the classic Hokie Stone buildings, Virginia Tech's picturesque campus provides a great environment for learning and growing.

VIRGINIA TECH'S ATHLETIC SUCCESS

Move to the ACC should allow for even greater achievements and visibility for the Hokies

Virginia Tech has a long and proud tradition in athletics, but the Hokies have really seen their success and visibility grow immensely over the past few years. For the ever-growing legion of Tech fans, the most exciting part is that the future looks even brighter.

On July 1, 2004, Virginia Tech officially became a member of the prestigious Atlantic Coast Conference — a move that is bound to help the Hokie athletics program grow even stronger.

Tech competes at the Division I level of the NCAA, and with a total of 21 varsity sports, 11 for men and 10 for women, Virginia Tech provides generous opportunities for athletes (and fans) to get in the Hokie huddle.

The recent success — and bright outlook — of Tami Riley's lacrosse program is only part of the story.

Tech's nationally-known football team has had unprecedented success over the past decade. The Hokies have played in 13 consecutive bowl games. The Tech football team won BIG EAST Championship in 1995, 1996 and 1999, and won the Atlantic Coast Conference Championship in its inaugural season this past fall. The football team has also played for the National Championship in the 2000 Nokia Sugar Bowl.

The women's basketball team has averaged 22 wins over the past seven seasons and has made seven consecutive postseason appearances, including advancing to the second round of the NCAAs last year.

In 2001, the Hokie golf team won a nation's-best six tournaments, including the BIG EAST Golf Championship, and went on to record an eighth-place finish at the 2001 NCAA Golf Championship. In two of the three previous years, the golf team repeated as BIG EAST champs and advanced to the NCAAs.

Baseball, tennis and other Tech sports, as well as track and cross country athletes also enjoy success at the conference and NCAA levels.

Celebrating big victories is what Virginia Tech athletics is all about. The women's basketball team (above) celebrates a first-round NCAA Tournament win last season in Cassell Coliseum. More than 65,000 Hokie fans join the football team in Lane Stadium to rejoice following Tech's 31-7 victory over No. 2-ranked Miami in 2003.

VIRGINIA TECH'S ATHLETIC SUCCESS

Virginia Tech fans are among the most supportive and spirited in the nation, and their sports teams give them plenty to cheer about. From the success of the football and basketball teams, to the women's soccer team reaching the NCAA Championships (below), to the golf team's regular appearances in the NCAA Championships (left), to the women's lacrosse team celebrating big wins (above), the Hokies have a lot to be proud of.

Spyridon Jullien (left) finished second by just three inches in the hammer throw at the NCAA Outdoor Championships this past year. Andreas Laulund (above) played in the NCAA Tennis Championships and Marlies Overbeek (right) earned All-America honors in cross country and indoor and outdoor track.

ADMINISTRATION

CHARLES W. STEGER *University President*

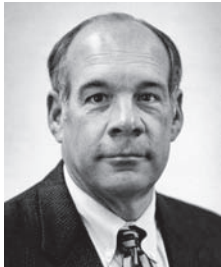

Most people in the university community are keenly aware of Virginia Tech's aspiration to become a leading national research university. Setting his sights on joining the nation's truly elite universities, President Charles W. Steger intends for Virginia Tech to be ranked among the top research universities by the end of the decade. His vision has energized the entire university community and has led to new educational and research initiatives across campus and throughout the state.

A registered architect and former dean of Virginia Tech's College of Architecture and Urban Studies, Steger was an architect of a different sort as the leader of the

university's successful fund raising campaign that concluded in 1998. Under his leadership, as vice president for development and university relations, the Campaign for Virginia Tech raised \$337 million. Last year, the university raised \$62 million, \$8 million more than it did the previous year.

Steger's ties to Virginia Tech span four decades as a student, professor, dean, vice present and now president. While on the faculty, he twice won teaching excellence awards. When he became dean of the College of Architecture and Urban Studies in 1981, he was the youngest architecture dean in the nation at 33 years of age.

Steger received his Bachelor of Architecture degree, Master of Architecture degree and Ph.D., in Environmental Science and Engineering from Virginia Tech.

JIM WEAVER *Director of Athletics*

James C. Weaver, whose innovative ideas and work as a reformer have made him one of college athletics' most popular administrators, is the director of athletics at Virginia Tech.

Weaver, 59, was appointed on September 24, 1997 and has been a tireless leader on behalf of Tech athletics. In his years on the job at Tech, Weaver has taken steps to place increased emphasis on projects benefiting student-athletes.

Weaver is presiding over Tech's move into the Atlantic Coast Conference in 2004-05. Last summer, Virginia Tech and Miami were officially introduced as the 10th and 11th members of the ACC, effective July 1, 2004.

"I'm excited for our fans and our constituency," Weaver said. "This membership is something that the fan base and alumni and friends of Virginia Tech have wanted for a long time. It's home for us. We've had prior relationships with these institutions for many years and this is something our fans are excited about. I'm happy for them, for our coaches and for our student-athletes."

A top personal priority for Weaver is the continuing improvement of Tech's facilities. When it comes to athletic facilities, Weaver has a simple philosophy. "As soon as you sit still in terms of facilities, you have taken a step backward," he says.

The installation of 1,000 permanent seats has been completed on a regulation-size field for the men's and women's varsity soccer teams and the women's lacrosse team. The lighted game field is adjacent to two full-size practice fields.

Major renovations on the west side of Lane Stadium are currently underway. The fencing that surrounds the stadium will be replaced with an actual entrance, additional luxury suites will be constructed, as well as two private club seating areas, new concession stands, a new ticket office, new athletic fund offices, an Athletics Hall of Fame and a new student academic service area.

To meet a growing demand for Virginia Tech football, Weaver spearheaded the construction of the south end zone project to expand seating capacity to 65,115 for the 2002 season. The \$37 million expansion project includes an 11,000-seat double deck and provides 15 luxury suites, as well as club level seating and amenities.

A north end zone addition was completed prior to the 2001 season. That section added over 5,000 permanent seats.

Weaver came to Tech from Western Michigan University where he was director of athletics from January, 1996 until he came to Blacksburg. Prior to that, he was AD for three and a half years at UNLV, where he reconstructed a troubled athletic department.

A native of Harrisburg, Pa., Weaver was a center and linebacker on Penn State teams coached by the legendary Rip Engle and Joe Paterno.

Weaver graduated from Penn State in 1967 with a bachelor's in psychology and rehabilitation education. He received a master's in college counselor education, also from Penn State, in 1968.

Weaver started a coaching career as an assistant at Penn State for six seasons. He later was the offensive coordinator at Iowa State and head coach for one season at Villanova in 1974. He also spent five years as an assistant professor at Clarion State and three years as director of franchise sales at Athletic Attic.

Prior to landing the athletic director's job at UNLV, Weaver spent nine years at the University of Florida, which was sanctioned by the NCAA in 1983. He was a strong force at Florida in the field of compliance and concluded his time there as associate athletic director.

Weaver and his wife Traci have four sons - Josh, Paul, Cole and Craig.

SUPPORT SERVICES

STUDENT ATHLETE ACADEMIC SUPPORT SERVICES

The success of Virginia Tech's athletic program rests largely on the academic progress of each student-athlete. The academic performance of Tech student-athletes has improved each year due in part to the Student Athlete Academic Support Services (SAASS).

The Virginia Tech graduation rate for student-athletes has risen significantly in recent years and reached 70 percent in 2003 as compared to the national average of 60 percent. The 70 percent student-athlete graduation rate marks the second straight year and five times in the last 10 years that Tech has reached that level.

SAASS provides programming for student-athletes from their freshman year through graduation. This includes a comprehensive orientation to Tech, study hall, mentoring, tutoring, academic monitoring, academic recognition, and eligibility education. Additionally, student-athletes are referred to and encouraged to take advantage of other campus agencies charged with helping students in their academic pursuits.

Academic facilities for student-athletes include the Monogram Room, a large room used as a study hall area adjacent to the SAASS office in Cassell Coliseum. The HEAT (Hokies Engaging in Advanced Technology) Lab and its satellite sites house over 40 computers on the second and third floors of Cassell Coliseum. Laptop computers are also available for Tech athletes to use when travelling to away contests. The athletic department also provides areas for private, quiet study for the athletes' convenience.

Chris Helms

Katie Ammons

Together, these spaces provide the student-athlete with a variety of study environments conducive to their success. Athletes can use these facilities between classes, after practice, or in the evenings, with flexible hours tailored to make the most of a student-athlete's limited time.

SAASS is comprised of coordinator Chris Helms, associate coordinators Lois Berg and Colin Howlett and two assistant coordinators – Katie Ammons and Drew Scales. Terrie Repass is the secretary and the "first contact" person for the SAASS. Scales coordinates the academic services for the lacrosse team.

Drew Scales

STRENGTH & CONDITIONING

For the Virginia Tech lacrosse team, the strength and conditioning program, under the direction of Assistant Athletics Director for Athletic Performance, Mike Gentry, plays a very important role.

The lacrosse team trains in the Jim "Bulldog" Haren Weight Room. Located in Jamerson Athletic Center, the 5,000-square foot weight room was officially dedicated in September 1985 to Haren, a former Hokie player and long-time supporter of the Virginia Tech Athletic Department.

Mike Gentry

Gentry is in his 15th season as the Hokies' director of strength and conditioning. As assistant athletics director for athletic performance, his duties include overseeing the strength and conditioning training of athletes in all 21 varsity sports at Virginia Tech.

A native of Durham, N.C., Gentry received his bachelor's degree in physical education from Western Carolina University in 1979 and received his master's from the University of North Carolina at Chapel Hill in 1981 where he worked as an assistant strength coach. He then went to East Carolina University and was elevated to head strength coach there in 1982. Gentry received his doctorate in curriculum and instruction, with an emphasis in motor behavior, from Virginia Tech in 1999.

Assisting Gentry in the weight room this year are three full-time assistant strength and conditioning coaches: Jay Johnson, director of strength and conditioning, Terry Mitchell and the assistant director of strength and conditioning coordinator of Olympic sports, Jamie Meyer. Gentry will also have the services of five graduate assistants.

SPORTS MEDICINE & ATHLETIC TRAINING

The Virginia Tech Sports Medicine Department is an ever-changing and developing unit that strives to provide the most current and comprehensive care to all student-athletes. The department is constantly evolving to incorporate new ideas and state-of-the-art resources for the betterment of student-athletes.

A professional staff — including certified athletic trainers, primary care physicians who are Board certified in family medicine and sports medicine, orthopedic surgeons, physical therapists, chiropractors, massage therapists, sports psychologists, nutritionists and orthotists — is available to manage the health care of athletes.

As part of the evolution, Tech recently completed the 4,300 square foot Eddie Ferrell Memorial Training Room. This area consolidated the training rooms that existed in the Merryman Center and Cassell Coliseum. The new facility gives the training staff a centralized area to care for the needs of all Virginia Tech student-athletes.

The new room, which nearly doubles the size of the former Merryman Center facility, also allows the staff to utilize that room for physical therapy, chiropractic care and massage therapy. With its completion, Virginia Tech now has more than 10,000 square feet dedicated to sports medicine, placing Tech in the top five percent nationally.

In addition, the \$10 million Merryman Center, a state-of-the-art facility which includes 2,400 square feet of medical space, will supplement the new training room.

This treatment room has numerous treatment modalities including electric stimulation, ultrasound, hot packs and interferential current. It also has an office for the staff, dozens of training tables, whirlpools, rehabilitation equipment and two cold tubs.

Kevin Domboski oversees the athletic training of the women's lacrosse team. Working directly with the Hokies this year is Roland Lovelace Jr.

Kevin Domboski

THE JIM "BULLDOG" HAREN WEIGHT ROOM

2004 REVIEW

When preparing for the 2004 lacrosse season, Virginia Tech head coach Tami Riley spent a great deal of time teaching her players lessons. They learned stick work, passing techniques and went through rigorous conditioning. They learned goalie techniques, one-on-one defense and mentally prepared themselves for tough competition. While these are all

syn · er · gy (P) (snr-j)

1. The interaction of two or more agents or forces so that their combined effect is greater than the sum of their individual effects.

important concepts in lacrosse, the main thing Riley and her staff focused on was synergy.

The concept of synergy meant that the Hokies' roster, composed of 11 freshmen and 11 upperclassmen, would mesh together to create a competitive team. This team

would need to be strong enough to tackle a 16-game schedule that included seven teams in the nation's top 20. This team would need to have freshmen step up and fill vacancies on the field left by graduating seniors. This team would need to improve on its 3-14 finish from 2003.

"Before each game, my coaching staff and I encouraged the players to be the best they could possibly be on the field," Riley said. "When the girls perform at their highest level, it is almost like an extra player on the field."

The 2004 Hokies showed early on that they were ready to challenge their tough schedule. After dropping their season opener to No. 3 Georgetown, the Hokies bounced back and won three straight games over Bucknell, Lafayette and Rutgers.

"From the start of the game, you could tell that we were a different team against Rutgers," Riley said. "Everyone was in the zone, they were focused. It was the first game under the lights at the new stadium and the team was just full of energy."

Senior Lindsey Welch stepped up against the Scarlet Knights and scored a team-high six goals and sophomore Stephanie Jones chipped in four goals.

The Hokies did not have time to celebrate after their win. The next three games on their schedule were all against ranked opponents on the road.

Although Tech kept things close, it was unable to overcome either No. 8 James Madison or No. 3 Notre Dame, but the Hokies stirred some excitement against No. 13 Northwestern.

Tied at 5-5 in the first half against the Wildcats, neither team was able to take more than a one point lead in the game until Jones scored consecutive goals to give Tech a 9-7 advantage. Northwestern's Kristen Kjellman netted back-to-back goals to again tie the score. Jones scored her sixth goal of the game, followed by senior Kate Threadgold's cage to put Tech up by two again, 11-9. In the end, the Hokies were unable to stop Kjellman, who scored three straight goals in the last five minutes to give Northwestern the one point win, 12-11.

After the heartbreaking loss to Northwestern, the Hokies returned to Blacksburg, where they won two straight at home over Ohio State and conference foe Boston College.

The Hokies exemplified true team synergy in the win over the Buckeyes. The team used a balanced attack to pull off the 10-6 victory,

with six different players scoring goals. Freshman Britt Faulkner led the way with three, while senior Jamie McGraw stayed consistent in the cage for the Hokies, stopping 11 shots.

McGraw continued to shine against Boston College. On a cold April day at the Virginia Tech Lacrosse Stadium, McGraw tallied 13 saves on defense to guide the Hokies to their second BIG EAST win. Tech once again played as a team, with seven different players recording goals. For her efforts, McGraw was named the BIG EAST Defensive Player of the Week.

"Our wins over Ohio State and Boston College are a good example of how great our team is," Riley said. "Everyone came together to lead the team to victory."

With an overall record of 4-5, Tech hit the road to face No. 11 Syracuse. Three quick goals gave the Hokies a 3-0 lead against the Orangewomen, but Tech was unable to hold on. The Hokies were defeated 12-7.

The loss did not affect the Hokies, as Tech regrouped as a team and rolled over Ohio University (14-12) and Davidson (18-6) to pull their win total to seven.

Faulkner paced the Hokies against the Bobcats with five goals, and senior Hilary Fay chipped in three.

Tech's offense had control of the game against Davidson, as Welch scored six goals and Faulkner added four. The Wildcats took only 15 shots in the game, seven of which were stopped by McGraw.

With emotions running high on senior day, Tech lost its final BIG EAST game against Connecticut. The loss marked the first time in the season that the Hokies were defeated by a team that was not ranked.

The Hokies closed out their 2004 home season with a game against in-state rival Virginia. In front of a crowd of almost 300 people, Tech kept things close with the Cavaliers leading by only four at the half, 12-8. The Hokies were unable to stage a comeback and lost, 20-13. Seniors Threadgold (six goals, two assists) and Welch (four goals) combined for a total of 10 goals in their final game in Blacksburg. Fellow senior McGraw tallied nine saves and four groundballs.

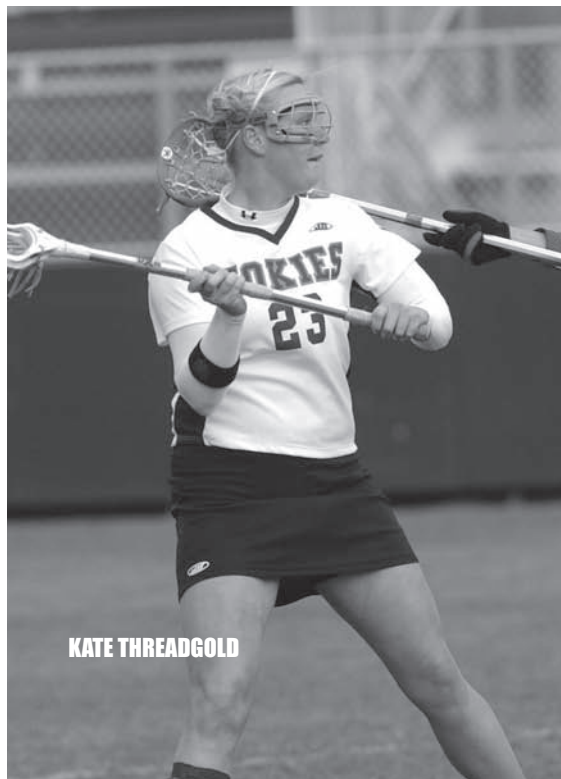

Tech hit the road for the final two games of the season. The first stop was at Longwood, where the Hokies were unable to hold off the Lancers in overtime, losing 15-14.

In their season finale, the Hokies pulled off one of the biggest wins in school history. For only the third time in 10 years the Hokies defeated a ranked opponent when they beat No. 18 George Mason, 5-4. Jones scored a game-high three goals.

"Our team showed great patience, discipline and control against George Mason," Riley said. "They were able to maintain possession and did a good job executing our game plan."

Tech finished the season 8-8, the fourth best record in the program's history. For two weeks, the Hokies received votes in the Intercollegiate Women's Lacrosse Coaches Association poll.

"This year has been especially special regardless of what our record was," Riley said. "It has been more memorable. Each and every individual that was part of our season made it special."

VIRGINIA TECH ATHLETIC FACILITIES

The swimming and diving teams compete in War Memorial Pool, located in the middle of campus

Cassell Coliseum — home to the basketball, wrestling and volleyball teams, as well as the lacrosse offices

65,115-seat Lane Stadium is home to the Hokies' football team and is undergoing major improvements

The Merryman Center and Jamerson Athletic Center house the department offices as well as strength, training and academic support facilities

Virginia Tech Lacrosse Stadium, an outstanding new facility, was built in 2003 at this location in the center of the athletic complex

Rector Field House provides a full-size indoor practice facility and houses Tech's state-of-the-art indoor track

Tech Softball Park

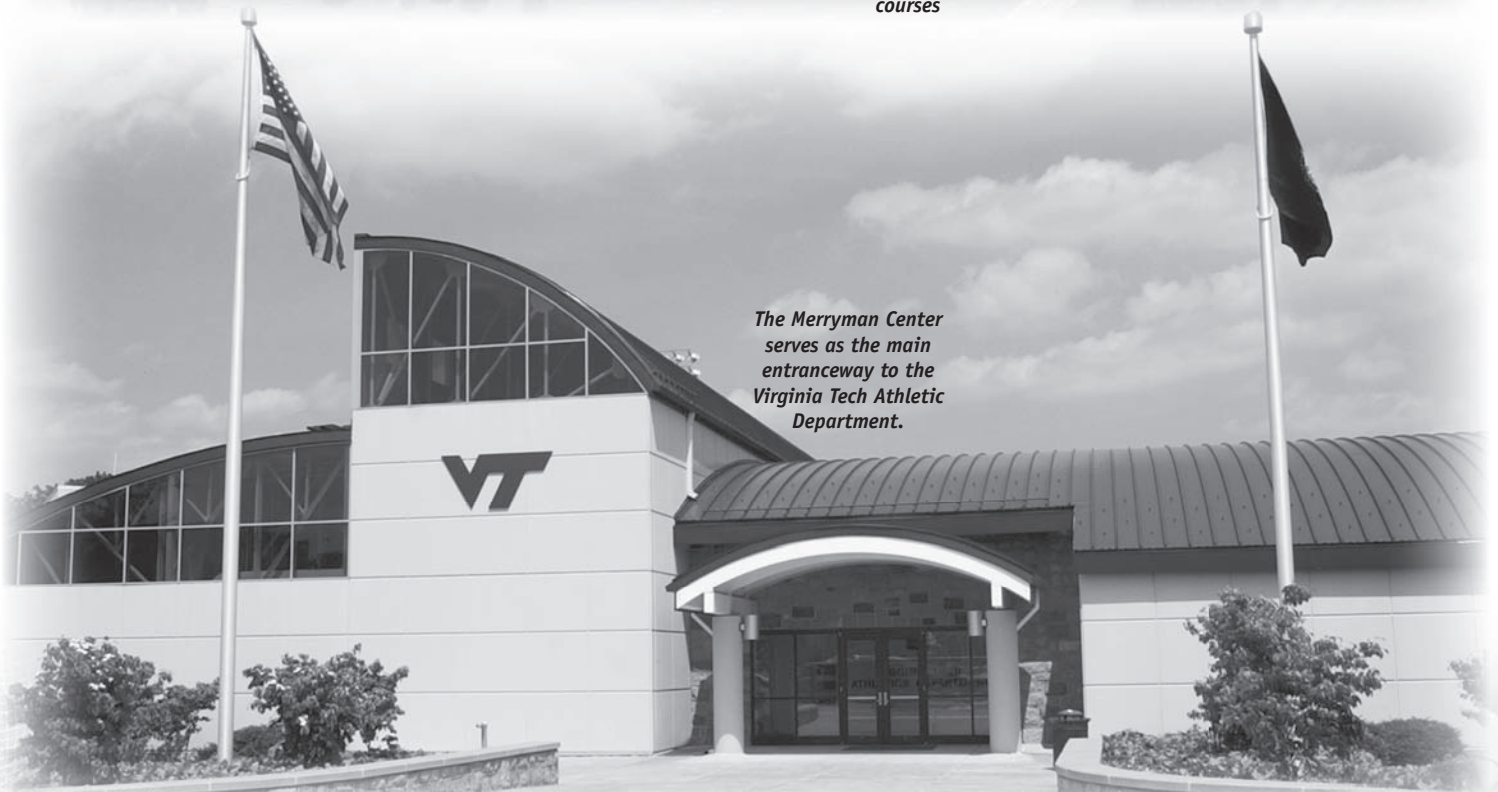

The Johnson-Miller Outdoor Track Complex

English Field is home to the Tech baseball team

Tech's cross country course is located on the west side of campus

The golf team enjoys privileges at Tech's on-campus course and four other nearby courses

The tennis teams play on the south edge of campus at the Burrows-Burleson Tennis Center

The Merryman Center serves as the main entranceway to the Virginia Tech Athletic Department.

VIRGINIA TECH ATHLETIC FACILITIES

Tech's competition venues — such as 65,115-seat Lane Stadium (above), 10,052-seat Cassell Coliseum (left), English Baseball Field (below) and Tech Softball Park (bottom) — are among the best in college athletics.

Rector Field House provides an excellent place for Tech's athletic teams to practice indoors during inclement weather.

VT LACROSSE STADIUM

Completed in the fall of 2003, the Virginia Tech Lacrosse Stadium is located in the heart of the athletic complex on the school's beautiful campus in Blacksburg.

The bluegrass playing surface measures approximately 75 by 120 yards. The field is equipped with an underground Cambridge irrigation system and is the only field in the ACC with this system. If rainy weather should occur, the field can be drained and ready for play. The wireless scoreboard enables fans to have a full score update, while a permanent Hubble lighting system allows for night games.

One of the finest facilities in the conference for spectators, the stadium features 1,000 seats where each fan has an unobstructed view of the playing surface. Spacious area around the field allows for nearly 1,500 more fans to watch games.

Across from the fans and between each team's bench area is the Sandy Thompson Press Box. A fully-heated 18 by 8-foot area, the press box contains a state-of-the-art sound system. Above the grandstand is a wired camera deck, which is accessible to all media.

"The stadium is absolutely beautiful," lacrosse head coach Tami Riley said. "When you watch a game under the lights, you can just sense so much energy from the players, coaches and the fans."

While the stadium is open for full use at this time, construction of a restroom facility has already begun. After that phase is completed, a concession stand and additional seating will make the Virginia Tech Lacrosse Stadium one of the best venues in the country to watch the sport.

COACHES' AWARD

- 2004 Virginia Tech Lacrosse Team
- 2003 Lauren Kenney
- 2002 Katie Madden

COMPETITOR AWARD

Created in 2002, this award is given to the member of the lacrosse team who displays the highest amount of competitiveness. Through a point system that begins in the fall and runs through the spring, athletes are encouraged to compete at the highest level at all times. A quote on the plaque on which the winners' names appear, reads, "The tougher the competition, the more motivated you'll be to excel."

- 2004 Jamie McGraw and Lindsey Welch
- 2003 Jamie McGraw and Kate Threadgold
- 2002 Sam Sybert

VIRGINIA TECH ATHLETE OF THE WEEK

Athletes from all 21 varsity sports at Tech are eligible for this award which is voted on each week by a panel of athletic administrators and sports information personnel.

- 2004 April 5 Stephanie Jones
- 2002 April 14 Katie Madden
- 2001 April 15 Jamie McGraw
- 2000 April 10 Kellyn Hentz
- April 3 Kellyn Hentz
- 1999 April 26 Dawn Will

HILARY FAY

MILESTONE VICTORIES

1. March 6, 1995 against Hollins. Virginia Tech went on the road and won its first-ever game at Hollins by a 21-2 margin.

25. March 31, 1999 against Davidson. The Hokies traveled to North Carolina and dethroned the Wildcats 15-13.

50. March 26, 2002 over Davidson. Tech knocked off its opponent 19-6 in front of the Hokie faithful.

BLACKSBURG, VA.

One of America's best college towns, Blacksburg is a perfect setting for a great university like Virginia Tech.

Located in Southwest Virginia on a plateau between the Blue Ridge and Alleghany Mountains, Blacksburg combines the laid-back lifestyle of a small town with the amenities one would expect to find around a major center of higher education. Together, the town and university have worked hard to create a progressive community that ranks among the nation's elite living environments.

Virginia Tech and the Town of Blacksburg gained national and international attention by creating the world's first "electronic village." Businesses and industries have been drawn by the potential of the quaint town.

Established in 1798 by John and William Black, the town is surrounded by scenic mountain views that accentuate the area. Since its founding, Blacksburg has grown to become the largest town in Virginia.

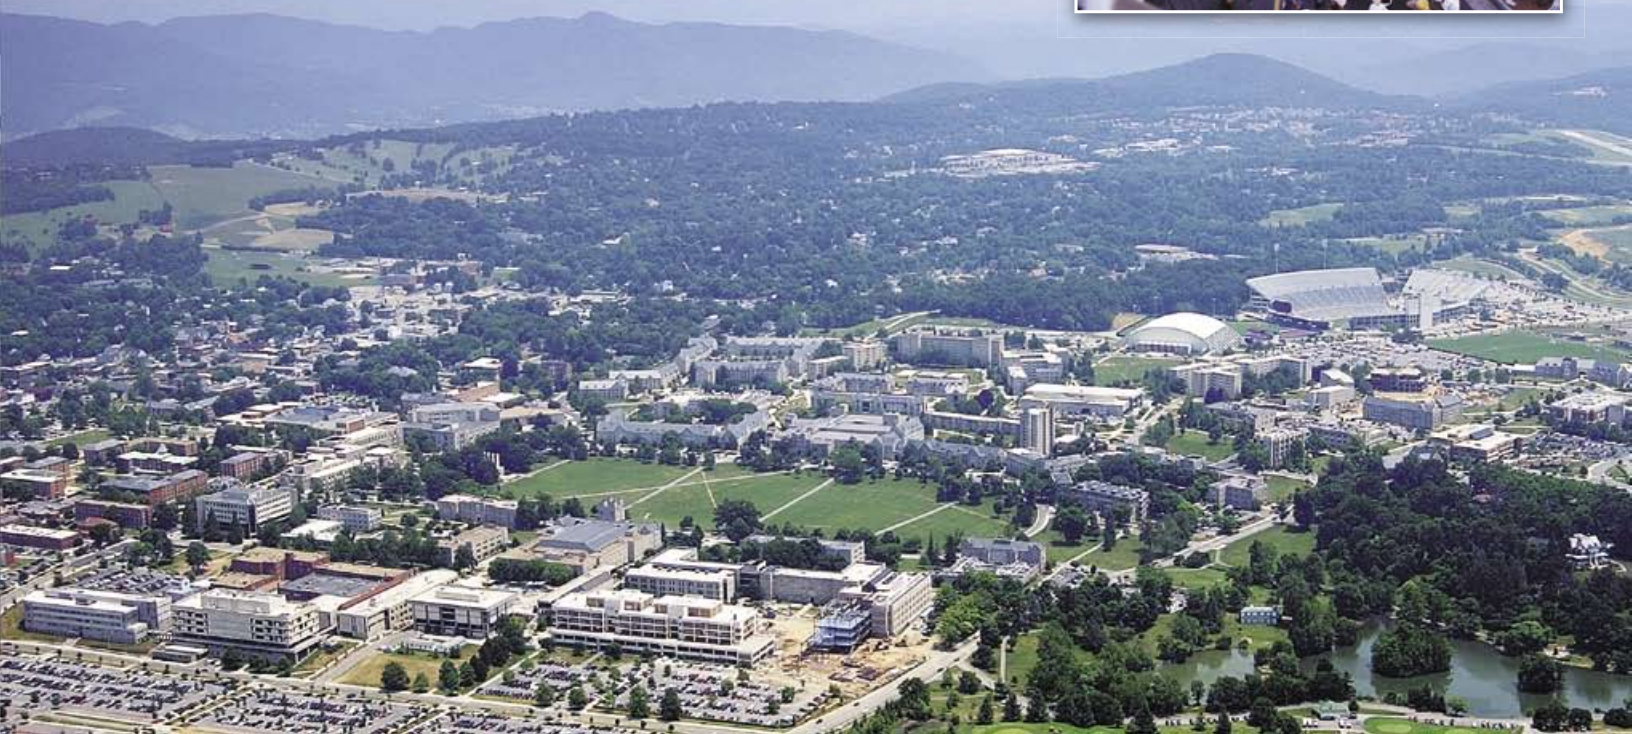

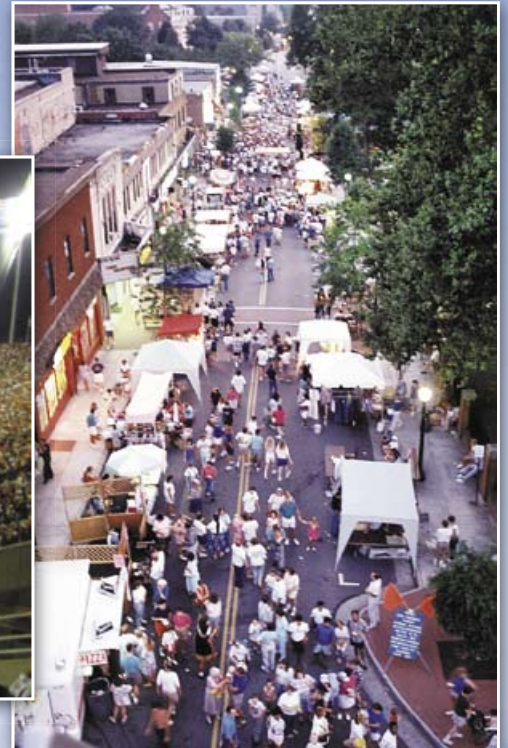

The nearly 36,000 residents (including students) enjoy a close proximity to a variety of recreation areas such as the Blue Ridge Parkway, Appalachian Trail, Claytor Lake and the New River. The region features a moderate climate and four distinct seasons.

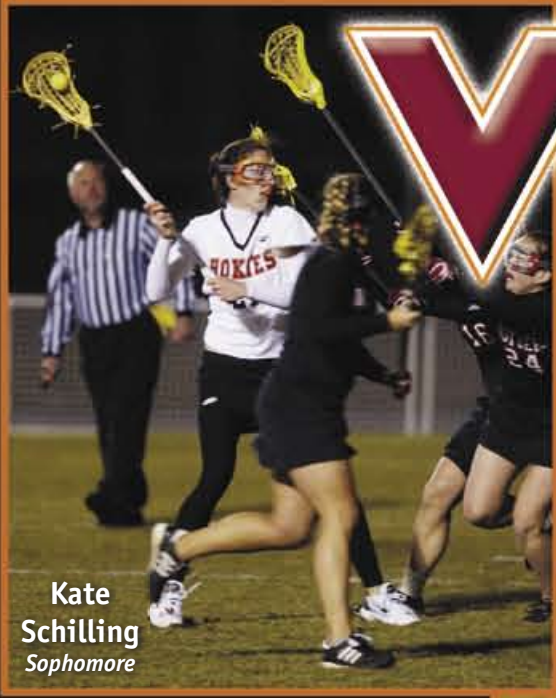

Blacksburg was recently named by *Outside* magazine as one of the top 10 places to live in America.

The town's location (adjacent to major interstate highways) provides convenient access to most points in the southern and eastern parts of the country.

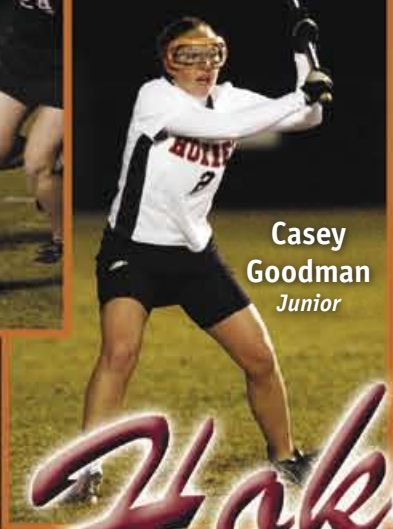

More information on Blacksburg can be found on the web site of the Blacksburg Electronic Village, www.bev.net or at www.blacksburg.va.us.

From peaceful outings at the nearby Cascades, to thrilling Tech football games at Lane Stadium, to downtown festivals, the Blacksburg area has a lot to offer.
